

An aerial photograph of a serene landscape. A calm, blue lake occupies the lower half of the frame, reflecting the surrounding environment. The lake is bordered by a dense, lush green forest of tall evergreen trees. In the lower-left corner, a small sandy beach is visible with a few parked vehicles. A small, winding stream or path cuts through the green forest area just above the lake. The upper half of the image is dominated by the dense forest, which fades into a soft, hazy white mist or fog at the very top. The word "HOSET" is written in large, white, sans-serif capital letters across the middle of the image, partially obscuring the forest. A small number "1" is visible on the right side of the image, near the middle.

GURU SERIES

The «Guru» chair series combines modern design, functionality, and natural materials. They are made from solid wood, specifically beech and oak, which provide strength and durability. The key feature of the «Guru» series is the ability to stack the chairs, allowing for convenient storage and space-saving. This makes them an ideal choice for cafes, restaurants, or contemporary home interiors. The ergonomic shape of the backrest ensures comfortable seating, while the smooth lines of the design give the product an elegant appearance.
